

**YAMAGUCHI
WRECKER**
株式会社 ヤマグチレッカー

YMG **TECH**

**WORLD CLASS
TOW TRUCKS
FROM JAPAN**

COMPANY PROFILE

BACKGROUND

PASSION AND PROFESSIONALISM

Founded in 1984, Yamaguchi Wrecker started as a provider of road assistance in the region of Yokohama, Japan. Mr Yamaguchi (Father) and his son Mr Yamaguchi Kikuo (current president) operated on the roads of Japan day and night, in all weather conditions and circumstances.

ROADS CONNECT SOCIETY

They had simple and strong belief: roads connect people, and when the roads are safe, the society will be safe. It is a duty to rescue the people in need, they have put their hope in us.

For this purpose, tow trucks must be highly reliable and easy to operate.

SHARE KNOWLEDGE

Tow trucks are often unseen but they contribute in making road and society running smoothly. We believe our work and knowledge have helped Japanese society and we hope to be able to share this experience to support emerging countries in Asia.

*Everything for a smile.
For the smile of the people,
For the smile of the society.*

VISION

To provide the best services and products in order to remove road obstacles and to permanently ensure a smooth access to social activities.

MISSION

To develop high precision tools and share our technology to protect road commuters in Asia.

VALUES

Commitment to excellence.
High reliability and durability.
Contribute to individual and social growth.
Always seek for innovations to further perform and protect.

PARTNERS

MILLER INDUSTRIES

Miller Industries Inc, the world leader in tow truck equipment, is our partner for more than 30 years.

Together we develop new design and equipment to make towing easier and safer.

JAPANESE TRUCKS

With more than 30 years experience operating Japanese trucks, we select the most suitable chassis to match each specific request.
